אאיוועס	East Germany	DATE DISTR 12 October 1953
SUBJEC	Development of Electrical Navigation Devices at VEB Carl Zeiss, Jenz	NO. OF PAGES 1
PLACE ACQUIRED		NO. OF ENCLS
DETE OF		SUPPLEMENT TO 50X1-HUN

I In the past wrich Thomas of the Construction and Experimental Department (Konstruktionsversuchsabteilung)(KoV) of VEB Carl Zeiss, Jena, has been engaged in the development of three different "devices for navigation on an electrical basis". 1/ After 11 June 1953; this development was discontinued, allegedly as a result of the new East German Covernment line.

50X1-HUM

2 The devices were earefully wrapped and are now stored at KoV.

Comment. It is believed that the development is radar development or development of parts for radar. This belief is based on the fact that the development was sevret and that Thomas is knowledgeable on radar development.
