6. Reservists continue to be recalled for training in new Soviet weapons turned over to the Bulgarian Army. These reservists are recalled for three months and are drawn from the 1908-1928 classes. In the city of Sofia approximately 300 reservists were called up each day for an unknown period of time. They had to present themselves for a general check-up in a high school located on Tsar Simeon Street. The medical visit was very general and was taken care of by a commission of civilian doctors. Out of 300 men examined daily, approximately 250 were retained and sent within the day to training units.
