- 25X1 1. The rebuilding and extension work on the Stalin (Brasov) airfield was started in late May, 1953. Except for the buildings occupied by an anti-aircraft regiment, all buildings, including hangars, towers, and garages are being demolished. New barracks will be constructed at the northern edge of the airfield. The administrative and technical divisions will be located at the entrance of the airfield.
2. The size of the airfield will be 1,900 by 1,560 meters. The excavation work for the underground fuel tanks, which will hold five million liters, has been completed. The concrete was poured in the middle of August 1953. The ground work for the roads has been completed and concrete is now being poured. The main road runs from northwest to southeast and is about 18 meters wide. A side road, which is 12 meters wide, runs from west to east. The concrete layer is approximately 80 centimeters thick.
3. The construction work is being done by 16 Pioneer Regiment and the "Iosif Ranghet" Brigade of the Union of Working Youth.
