8	Between 16 and 20 February, the barracks installation in Weimdorf quartered about 2,000 troops who wore black-bordered crimson and black-bordered blue epaulets. Troops organized into groups of up to 200 men practiced carbine firing with live ammunition or engaged in combat training in the training area northeast of the installation. They practiced attacking by advancing in bounds and aiming at targets spread over the training area.	25X1B
		25X1B
25X1A	Comment. Report indicates no changes in the occupation of the barracks installations. The identified by two sources confirm the MVD battalion in the barracks installation in Weixdorf. The device seen by the first source is a type AA1 MK2 AAA firing director, as was inferred from a sketch forwarded by source.	25X1B
