25X1

1. Work was started in December 1953 on the construction of a new power station, located 1,200 m. from the Sopot - Gdynia road bridge, in the direction of Sopot (Zoppot), between the road and the railroad track.
2. The power station is scheduled to supply current for the Nowy Port (Neufahrwasser) - Gdansk (Danzig) - Gdynia electric railroad.
3. [redacted] one hall, approximately 12 x 6-7 m. x 8 m. high, had been built; it has two rows of windows. The windows in the lower row are of the size usually used for dwelling houses. The upper windows are large and reach almost to the roof. The walls are not plastered and the roof has not yet been laid.
4. Scaffolding (sic) has been erected near this building for insulators for outgoing cables.
5. It is planned to extend the electric railroad line by a new sector, leading from the Gdynia - Osobowa station to the Paris Commune Shipyard.
