REMARKS [redacted]

50X1-HUM

1. Between 0715 and 0730 on 27 September 1954, the previously reported Token-type and Fishnet-type radar sets at Zwoelfaxing airfield were not in operation. About 20 meters northeast of the Token-type set, 1 Kniferest-type set and 1 Fishnet-type set were being newly established. No motor vehicles were parked near the sets. Lines which could not be clearly identified extended from the sets to the hangars. Small groups of soldiers were engaged in work of an unidentified type on the landing field. A truck and a van-like truck were parked nearby. The new graded area was sparsely covered with a brownish grass.
2. Between 0730 and 0745 on 27 September, the Altkettenhof in the Schwechat military post was guarded by sentries wearing black-bordered blue epaulets. Sixteen men wearing the same service color left the installation and proceeded toward Zwoelfaxing. The umbrella-type antenna was removed. 50X1-HUM

[redacted] Comment. The previously reported radar set consisting of 1 Token-type set and 1 Fishnet-type set has additionally been equipped with 1 Kniferest-type set and 1 Fishnet-type set. It is still assumed that the installation belongs to the fighter division in Wiener Neustadt.
