- 2. On 17 September 1954, re aircraft were stationed at Staaken airfield. Some of the hungers were open, others were closed. The field was occupied by a Soviet border guard detail of Unit Pavelgukov from Gross Clienicke and a guard detail of SED civilian guards from Falkenses, who were assigned to guard the field. The border guard troops were red-bordered black epaulete and were quartered in 3 buildings.
- 2. A school for the German foreign and dimentic trade (Dautscher Innen- und Aussenbander) (DII) was allegedly to be established at the field. For this purpose, the fermer kencedature building, 3 large buildings, 1 kitchen building and several garages were being repaired. The date when the school should begin was not yet fixed.

Comparing. As previously observed, Staaken sinfield is not occupied by an air whit. The establishment of a school for foreign and domestic trade of the CDR is reported for the first time and requires confirmation.
