2 .	On 24 September, the AA gun emplacement in the northwestern part of the field was occupied by 8x 76 mm AA guns. Four 37 mm AA guns were seen in an emplacement 100 meters southeast of the Rudolfshoehe Settlement. Possibilities of observation were limited.	
	On 23 October, 6 x 76-mm AA guns were seen in the emplacement in the northwestern part of the field. Eight motor vehicles were parked in the shed at the AA gun emplacement. Three 37-mm AA guns were seen in the emplacement near the Rudelfshoehe Settlement. It was believed that not all guns could be seen there. 2	
ÿ.	On 24 September and 23 October. 2 radio trucks were parked at the take off point at the eastern end of the runway at a distance of about 150 meters from east to west. The antenna mast which was about 20 meters high was braced once and had a funnel—shaped device on top. Two other radio trucks with rod antennas were standing to the west. A PKV-45 (D/F) station, a radio truck with	
	broom-shaped antenna and another radio truck  were seen in the castern extension of the runway south of  Hirschfelde. A radio installation of one mast was seen next to the latter radio truck. One Kniferest-type and one Fishnet-type rader set were seen in the western part of the field north of the woods. An AA 4 MK 3 type radar set was seen about 200 meters south of the AA gun emplacement in the northwestern part of the field.	25X1
4.		25 <b>X</b> 1
5.	The following air activity and aircraft were observed at the field between 20 September and 5 October:	25X1
	22. 25. 27. 23 September and 1 and 2 October. Twin-jet engine aircraft mode individual and formation flights. Up to 4 aircraft were seen aloft during individual flying. Formations consisted of up to 12 aircraft.	
	4 Descriper. Aircraft parked at the field included about 24 in front of the hangars and 4 at the runway. Each aircraft had a crew of five men, four of whom entered the aircraft in front, the fifth in the recr.

2.	On 24 September, the AA gun emplacement in the northwestern part of the field was occupied by 8x 76-mm AA guns. Four 37-mm AA guns were seen in an emplacement 100 meters southeast of the Rudolfshoehe Settlement. Possibilities of observation were limited.	
	On 23 October, 6 x 76-mm AA guns were seen in the emplacement in the northwestern part of the field. Eight motor vehicles were parked in the shed at the AA gun emplacement. Three 37-mm AA guns were seen in the emplacement near the Rudelfshoehe Settlement. It was believed that not all guns could be seen there. 2	
5.	On 24 September and 23 October. 2 radio trucks were parked at the take-off point at the eastern end of the runway at a distance of about 150 meters from east to west. The antenna mast which was about 20 meters high was braced once and had a funnel-shaped device on top. Two other radio trucks with rod antennas were standing to the west. A PKV-45 (D/F) station, a radio truck with	05.74
	were seen in the eastern extension of the runway south of Hirschfelde. A radio installation of one mast was seen next to the latter radio truck. One Kniferest-type and one Fishnet-type radar set were seen in the western part of the field north of the woods. An AA 4 MK 3-type radar set was seen about 200 meters south of the AA gun emplacement in the northwestern part of the	25X1

	The following air activity and aircraft were observed at the field between 20 September and 5 October:	25X1
	22, 25, 27, 28 September and 1 and 2 October. Twin-jet engine aircraft made individual and formation flights. Up to 4 aircraft were seen aloft during individual flying. Formations consisted of up to 12 aircraft.	
	4 October. Aircraft parked at the field included about 24 in front of the hangars and 4 at the runway. Each aircraft had a crew of five men, four of whom entered the aircraft in front, the fifth in the rear.
