THIS IS UNEVALUATED INFORMATION

1. At the beginning of November 1954, the Soviet DDSG vessel VLADIVOSTOK was undergoing a complete overhaul at the Korneuburg Shipyard near Vienna. The work on the vessel is expected to be completed by the end of March 1955. 25X1
2. Construction of the Soviet DDSG vessel MOSKVA is scheduled to be finished also at the end of March 1955. The MOSKVA will be a propellor driven motorship of the KRONSTADT type with two diesel motors of 400 HPS each and will be used as a tug-boat for towing barges. The minimum draft will be 80 centimeters, while maximum draft loaded and with full bunkers will be 120 centimeters. ✓
3. During November 1954, the SDGP had 14 freight barges of about 1,000 metric ton capacity under construction at the Korneuburg Shipyard.
4. As usual, rotational repairs were being made during November 1954 in the Korneuburg Shipyard on a group of patrol boats (Marineboote) of the Soviet Danube flotilla. As soon as one group of patrol boats is repaired others come in for repair work.
