Mortar unit	6	41
SP unit	6	21
Total	190	1,026 3

25X1

- In early January, the men of the 2d Inf Regt received mainly field training. Minor exercises up to battalion level were regularly held. [redacted] several major exercises up to division level were scheduled to be held in 1955.
- There were continuous reassignments to Korps Sued, particularly to Leipzig, Halle and Erfurt, of soldiers, especially artillery-men and supply service personnel.
- [redacted] Comment. Compared with the figures of 13 September 1954 which are contained in a previous report [redacted] the strength figures mentioned in the present report are somewhat lower. It is only the tank SP regiment whose strength has increased by 100 men. [redacted]
- [redacted] Comment. Compared with the figures as of 4 November and 15 December 1954, there are only unimportant changes. [redacted]

3. [Redacted] Comment. The figures mentioned in the present report practically agree with the figures of 15 December. It is noted, however, that the low strength figures of the 2d and 3d Bns which have been reported since the fall of 1954 are unchanged although as far as the figures as of 4 November are concerned they have been related to the detaching of numerous soldiers for turnip-harvesting.
