Y RAINIE

1. An intelligence section, entitled Sonderstab M-A (Militaerabwehr), is in the process of being established at the new KVP headquarters in Strausberg.
2. This section is to take over responsibility for such purely military questions as are now dealt with by the Secretariat for State Security. Its tasks will include the investigation of cases of KVP personnel who have fled to the West and the prevention of attempts by these refugees to contact former colleagues.
3. The field of action of the new section is being worked out by the Operational Coordination Staff (Koordinierungs-Operationsstab), headed by Major Generals Mummeler and Bonmann, and officials of the SFS. Candidates for the intelligence section must be screened by the SFS and their appointment is subject to the approval of the Cadre Section of the Central Committee of the SED.
4. The move of KVP headquarters units to Strausberg is continuing. The Transport, Commisariat, Planning and Construction Sections are still in Berlin-Adlershof and will probably remain there for the present. Most of the operations sections have already moved to Strausberg.
