lo	Commento Wiener Waustadt airfield is still occupied by two Soviet fighte regiments equipped with MiG-15s. The MiG-15 numbers mentioned were reported previously.	T
2.	Comment. According to recent reports, the AA guns which were observed for the first time in Kagran are not of type ZPO 1 but presumably 25-mm guns. It is unknown whether this gun is the well known 25-mm AA gun of type 41 or a new model of this gun.	25X
