25X1 1. [ ] The Mac regime claims that as of 1950 it had repaired and in operation 22,408 kilometers of railway in all China as against 26,248 kilometers in operation under the Nationalists prior to 1948. Additionally, the Communists claim they have built 895 kilometers of new line and plan to build 14,815 kilometers more as soon as possible. Some of this planned mileage is supposedly already under construction.

25X1 2. [ ] Based on intensive research of Chinese newspapers and magazines and on study of maps and publications issued by the Communist Ministry of Railways in 1950 [ ] the mileage of repaired and operated railway, by major areas as of 1950, breaks down as follows:

(Communist figures are underlined)

	Mileage repaired 1948-1950 and in operation in 1950	Mileage operated prior to 1948
Manchuria	<u>10,095</u> kilometers	11,336 kilometers
Area north of Yangtze	<u>7,615</u>	8,533
Area south of Yangtze	<u>4,498</u>	6,090
Hainan Island	<u>200</u>	289
<b>TOTAL</b>	<b><u>22,408</u></b>	<b>26,248</b>
