MEMORANDUM FOR: General Magruder
Admiral Stevens
[Redacted]
Mr. Sheppard

25X1A

As a basis for discussion at our next meeting on Monday, I am enclosing a draft memorandum outlining some of the steps which might be taken now to strengthen our existing organization and procedures under NSC 59/1 to meet situations where joint political and military action is required in the psychological warfare field to carry out U. S. national policy.

This is a first draft for discussion purposes and will, of course, need further checking and development.

Edward W. Barrett
