1. In referent memorandum the Director has established revised FY 1967 position ceilings for the Support Directorate. The ceiling thereby established for your Office is [REDACTED]

2. Mr. Helms has stated that "immediate action should be taken to eliminate or curtail those programs which were identified for such action in order to comply with the Presidential directive to hold manpower to 31 July 1966 levels plus the approved exceptions." He also reminds us that component staffing complements should be revised to agree with the approved ceilings, recognizing that in some cases current manpower imbalances will require the remainder of the fiscal year to correct. The firm objective is that year-end, on-duty strength not exceed the revised ceiling.

3. I recognize that the ceiling of some Offices will increase in FY 1968, which makes reduction to the FY 1967 ceiling by year's end impractical. The Director's requirement, however, is that year-end, on-duty strength for the Directorate not exceed the ceiling, therefore, some adjustments between Offices can be made as circumstances require.
