<p>1. Reference (a) requested advice as to why revisions of [REDACTED] made subsequent to the release of reference (b) cite obsolete general ledger accounts giving reference (d) as an example.</p> <p>2. The reason that references (c) and (d) did not include changes in the general ledger accounts previously prescribed in reference (b) is due to the method in which revisions are processed at Headquarters (i.e., the more important revisions are given priority and consequently are published prior to revisions which reflect only routine changes). The revision which reflects the changes in the general ledger accounts is currently in process of publication and should be issued in the very near future. Pending receipt of this revision you should continue to follow the requirements of reference (b).</p>
