MEMORANDUM FOR: Walter Pforzheimer

SUBJECT : "Counter-Revolutionary Agent"  
by Hans Tanner

The general tone of this book gives a fairly accurate picture of the way in which anti-Castro Cuban organizations operated during 1961. Insofar as he refers to public events and figures, his information seems to be accurate. When he talks about lesser known people, he appears to be using aliases in many cases, and I have no way of judging his accuracy.
