MEMORANDUM FOR:

Chairman, Coins I/Soviet Personality
Files Panel

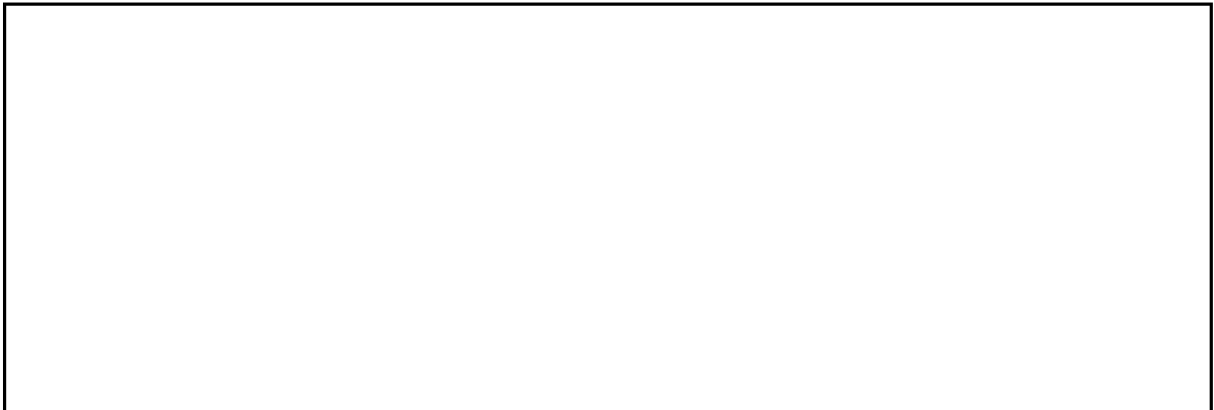

25X1

SUBJECT: CIA COINS Soviet Personality Files

Here is the requested information concerning the Soviet Personality Files to be contributed to COINS by CIA. The files will be The Biographic Register Soviet Dossier Index File and the two Soviet Elite Files. (The "Soviet Elite File" will actually be two physical files because of the limitation of record size of files produced by the Mark II_a version of the Formatted File System used by CIA).

None of these files currently exist in a form usable by COINS; The Soviet Elite Files are under development and The Soviet Dossier Index is in punch card form. Therefore some of the information items requested have not yet been specified.
