**MEMORANDUM FOR THE EXECUTIVE SECRETARY, USCSB**

**SUBJECT: Flexowriter Security Problem**

1. At its meeting on 7 March the United States Intelligence Board considered and approved certain recommendations by its Committee on Documentation. One of these USIB-approved recommendations, which pertains also to work presently being done under the aegis of USCSB, is as follows:

"That the USIB endorse the steps taken by the Committee on Documentation to coordinate Service and departmental plans for using flexowriter equipment in overseas posts. Further that USIB re-emphasize its sense of urgency to the Communications Security Board for the resolution of the flexowriter security problem."

2. Accordingly, we would appreciate it if you would distribute a copy of this USIB action to the members of USCSB for information and such further action as they deem appropriate.
