

CONFIDENTIAL

20 November 1969

MEMORANDUM FOR: The Director

If you have a chance at this morning's USIB discussion of releasing information to Congress, suggest you caution USIB members against any reference to, or quotes from, National Estimates in their congressional briefings. This has several times resulted in embarrassment when members of Congress and their staffs hear of a specific estimate 25X1 and ask to see it.

JOHN M. MAURY
Legislative Counsel
