TO: Paul

25X1 FROM: [Redacted]

SUBJECT: Request from Colby for Representative on Community Review of S&T Analyst Assistance Contracts

REMARKS:

1. Depending on what price you want to pay, the following people might be considered for nomination to serve on Sam Wilson's working group.

25X1 [Redacted]

2. Any of the above would provide effective representation. Mindful that the group will (a) look into S&T analyst support and (b) is primarily military (DoD) oriented, I think one of the following would be particularly appropriate:

[redacted] is sufficiently interested and experienced in the area of external research that he could also do the job--but I don't believe he has the proper grounding in military analysis that the others have.

MEMORANDUM FOR: Deputy Director for Intelligence
Deputy Director for Science and Technology
SUBJECT : S&T Analyst Assistance Contract Review

25X1

1. [] has proposed an ad hoc working group to review S&T analyst assistance contracts. The first task would be to review contracts for FY77 to weed out unnecessary duplication and identify similar requirements. The second task would be to make recommendations to improve coordination of S&T contract efforts.
2. I think this is a good approach to a problem that has been with us for some years. I'm particularly concerned that we get as good a look at FY77 contract proposals as possible before budgets are set. I have asked Sam Wilson to take the lead to get a working group together.
3. Because this is of community-wide interest, CIA participation is important. Please give this your personal attention.
