MEMORANDUM FOR:

[Redacted Name]

Chief, Executive Staff, DDI

25X1

SUBJECT:

Publications Procurement

The attached table, FYI, shows CRS actual and anticipated expenditures on publications for the Intelligence Directorate. The table covers the period FY 1969 - FY 1971. The amounts earmarked for FY 1971 are extensions of the actual FY 1970 activities. The sums earmarked for FY 1971 differ from actual FY 1970 expenditures primarily because procurement activity in the second half of FY 1970 declined sharply following the Executive Director-Comptroller's memoranda of 29 October and 26 November. The total sum available to CRS for all Agency publications procurement is predicated on the assumption that this reduction in procurement activity will prevail throughout all of FY 1971.
