United States Senate
Washington, D.C. 20510

Dear Senator Church,

As promised in my testimony on 9 June, I am enclosing a copy of the article from the San Francisco Chronicle which indicates the source of a serious intelligence leak may have come from someone close to the Senate Foreign Relations Committee. I emphasize again that I don't accept this report at face value but only report what has been said.

You also asked me to let you know whether the Cubans claim that the military personnel they have been sending to Ethiopia and Angola are volunteers. The answer is yes. A statement made by Castro on 15 March 1978 is typical. In a speech referring to Cuban soldiers in Ethiopia, he stated, "As with Angola, there were not 1000 or 10,000--there were hundreds of thousands of fellow Cubans ready to fulfill that internationalist mission."

Yours sincerely,

STANSFIELD TURNER

Dear Bob,

Just a note to tell you how disappointed I am that we were unable to get together last week. I was called away on short notice to testify on the Hill and you were on your way before we could reschedule. Hope we can get together next time you are in Washington.

On a more personal note, some relatives of ours, Bob and Jane Gaw, live in Kuala Lumpur (he is Administrator of the International School there). If you should run across them, I would appreciate your passing on our best wishes.

Again, sorry we missed connections. All the best.

Yours,

STANSFIELD TURNER
