

THE SECRETARY OF STATE  
WASHINGTON

JUL 8 - 1965

*date*

Dear Red:

Following our conversation on Friday I have had a chance to read and to ponder your proposed outline for SNIE 10-8-65.

I wonder what you will think of the enclosed recasting of the options you presented. This new draft changes their order and content, and offers, I believe, an improved basis for useful estimating. I have also tried to make it clear in the introductory note that the range of choices listed goes beyond those currently under consideration within the Government to include those described in Courses III and V.

Sincerely yours,
