THE WHITE HOUSE  
WASHINGTON**CONFIDENTIAL**

June 24, 1964

MEMORANDUM FOR: The Chairman,  
United States Intelligence Board

SUBJECT: U. S. Foreign Intelligence Objectives

Receipt is acknowledged of your report on the subject dated May 4, 1964.

This office concurs, in this particular instance, in your suggestion that further developments on the implementation of the recommendations relating to the subject be covered in the future in the reports which you submit annually to the President's Foreign Intelligence Advisory Board relative to the coordination of the U. S. Foreign Intelligence effort.

Because of the importance attached to the recommendations which the President's Board has made on the subject, and because the recommendations involve the responsibilities and interests of the several member agencies of the intelligence community, it is requested that future annual submissions thereon be prepared in consultation with the members of the United States Intelligence Board. It is suggested further that at appropriate intervals between these annual reports, the United States Intelligence Board periodically assess the progress being made toward the achievement of each of the intelligence objectives involved.
