MEMORANDUM FOR: Deputy Director for Support

Bob:

Certain actions were requested by the Office of the Director in recent weeks and, according to our records, have not been fully answered. It is quite possible they have been overtaken or have been satisfied, but to bring our records up to date, I should appreciate a brief word from you on the status of each of the following items.

- a. The need for a forthright letter to GSA from the Director setting forth our intent to acquire nearby property.
- b. An over-all Agency study of our language training programs.
- c. A response to the Inspector General's Survey of Industrial Security.
