MEMORANDUM FOR: Executive Director-Comptroller *Ex. Dir. noted*

THROUGH : Deputy Director for Support *28 OCT 1965*

SUBJECT : Review of Office of National Estimates

1. In response to your request, we have reviewed personnel actions to staff the National Estimates Board and other professional positions in the Office of National Estimates since March 1963. (This is as far back as we could go based on readily available records.)

2. The following information is in response to your specific request.

Prepare biographic sketches of members of the Board and how long has each person been a member of the Board?

Attachment A contains biographic sketches of individual Board members including the dates of their appointment to the Board. In summary, two members have been on the Board for less than one year, one has been a member for slightly more than two years, one has been a member for three years, one for four years, two for eight years, one for more than eleven years, and one for thirteen years.

Are there any significant patterns in assignments to or from ONE? and are there indications of dissatisfaction?

Eleven of the fifteen reassignments of professionals into ONE held the position title of Intelligence Officer. Nine of the ten were from Offices in DDI (See TAB C). Of the nine professionals who were reassigned out of ONE during the period, six were assigned to O/DDI. However, four of these retained their ONE Career Service Designations, possibly indicating an intent that they would return to ONE. We found no pattern of dissatisfaction among individuals who left the Agency from ONE. However, the exit interview record of [redacted] GS-12, who resigned in July 1965, suggests a possibility of some dissatisfaction. Only three members of the National Estimates Board left the Agency

3. In addition to the biographic sketches in TAB A, we have attached the following roster reflecting actions on personnel, grade GS-09 and above:

TAB B - Reassignments Out of ONE

TAB C - Reassignments Into ONE

TAB D - Resignations From ONE

4. TAB E presents a statistical summary of the results of our review.
