17 October 1949

Mr. Issac Baruch
Chief, Personnel Classification Division
Civil Service Commission
Washington, D. C.

Dear Mr. Baruch:

Reference is made to Section 9, Central Intelligence Agency Act of 1949, Public Law No. 110, 81st Congress, approved 20 June 1949, which authorizes the Director of Central Intelligence, with the approval of the Civil Service Commission, to establish not in excess of three professional and scientific positions within the Central Intelligence Agency at rates of compensation not less than \$10,000 nor more than \$15,000 per annum.

One position has already been established under the above authority, that of Assistant Director for the Office of Scientific Intelligence at a salary of \$15,000 per annum, approved by the Civil Service Commission under letter dated 29 June 1949, File FC:ggb.

It is now desired to establish the second of such positions as Chief of the Production and Coordination Staff, Office of Scientific Intelligence, with a salary rate of \$11,500 per annum. This position is of great importance to the Office of Scientific Intelligence, being charged with over-all responsibility for formulating plans and procedures for fulfilling the obligations of that Office, as well as having direct authority for all production and coordination activities. The Commission's approval of the above position at the salary stated is requested.

Sincerely,

Signed - Retd to Exec for disp by
hand 10/17

R. H. Hillenkoetter
Rear Admiral, USN
Director of Central
Intelligence
