4. Senator Stennis and Congressman Winstead were alerted to CIA interest in CAT by some unidentified State Department officer in connection with the former's interest in seeking compensation for the widow of an individual killed in the recent CAT plane crash. We are seeking to determine who the individual in State was, but at this point, we are just alerting you to a possible call from the Senator.

5. You will recall that [Redacted] prepared a review of the Invisible Government which he was going to try to have published in Life. Life has now told him that since the book has had "little impact" they are not going to use it. He has now submitted it to Readers' Digest.
