

NOTES FOR DDCI

11 June 1964

1. As you know, John Bross and his office have been charged with staffing out a response for the Director in matters related to NSAM 300 and 301 dealing with the future of intelligence installations in unstable foreign countries. State Department has provided a list of such countries to Bross and the Director has asked that the CCPC undertake a review of the subject. This will provide for inputs for all agencies in the Community and for future USIB approval of whatever response eventually materializes.

2. Bannerman advises that a new book is on the market entitled "The Mission". It is a short but detailed account of Lt. Cdr. LBJ's mission as FDR's personal rep in the Pacific in 1942. In the course of this mission, LBJ wound up in an aerial battle which got him the Silver Star
