

~~SECRET~~

NOTES FOR DDCI

27 January 1964

1. Per your request, [] has been informed and will show up at USIB on Wednesday to brief on satellite scheduling.

25X1 ✓

2. I have a 105-page study by Rostow on the implications of the ChiCom acquisition of nuclear capability. He covers it with a letter to the DCI asking the DCI to read this personally. Rostow promises to be in touch with him later "as to how it might be considered in the Government". Rostow says he sent a copy to Ray Cline. I have asked DD/I to do a summary and comments before showing it to you.

OK ✓

3. Major General Holtner, Commandant of the Armed Forces Staff College at Norfolk has written to the DCI inviting him or you to address the College at 10:00 a.m. on Wednesday, 8 April. Subject is a one hour talk on CIA, its functions, mission, and role in the Community.

Kirk ?

4. You asked about the Pentagon paper on NPI C. [] tells me it is being put in final form in the Pentagon and has been considerably watered down from earlier versions.

25X1 ✓

5. The DCI once commented about the use of the Agency auditorium and said he felt it might not be used to a great extent. Red's people have done a study of its use which indicates it was used approximately once each workday during 1963, a total of 555 hours and a total attendance of over 21,000. Kirk finds this usage better than expected but believes it can be used even more extensively.

✓

6. You signed the commendation letters prepared by Carl Duckett on two GMAIC subcommittee chairmen and asked that [] [] OK them before release. [] has approved and the letters have gone forward.

25X1 ✓
