are they out?

No

4. Larry Houston has recommended to the DCI that we not write to Russell and Saltonstall about the Executive Pay status until we see what the Rules Committee does in the House. In the event amendments are prohibited in the House, Larry recommends we then immediately alert Russell and Saltonstall and appropriate members of the Senate Post Office and Civil Service Committee.

5. [redacted] has sent an action memo to the chairmen of the various USIB committees asking a variety of questions about the work of the committees, particularly with respect to PNIO's.
