

TOP SECRET

Daily Staff Meeting

Monday, 23 April 1951

No items were presented for the Assistant Directors meeting. It was noted, however, that Mr. Wolf wished to discuss both the emergency plan and the automobile situation but both of these items can be delayed until the next meeting.

It was suggested that a demand for the Director to testify before Congress on the MacArthur situation would probably be forthcoming and that we should prepare a statement for his use.

25X1 [redacted] stated that [redacted] was being over-worked and would be unable to get lunch for the personnel in the building. 25X1

Mr. Reber asked that an early expression of the deputies views on the Watch Committee be obtained as there is a meeting with the Army on the subject tomorrow.

25X1 Mr. [redacted] reported that the Department of State had sent CIA a formal request to be of assistance in establishing ^{an} emergency center and emergency communications facilities.
