## DAILY STAFF MEETING

Monday, 30 July 1951

Mr. Reber noted that NIE's 25 and 38 would be discussed at the IAC Meeting today.

25X1 Mr. [ ] reported that a system was being devised whereby  
 25X1 CIA would send a Weekly Intelligence Summary to our Senior  
 25X1 Representatives abroad. Mr. [ ] will deliver his copy to  
 25X1 Colonel Schow, who in turn will show it to Generals Eisenhower  
 25X1 and Gruenther. This led to the discussion as to whether we were  
 25X1 not in fact competing with the Weekly Summary which is prepared  
 25X1 by G-2 for General Eisenhower. Mr. [ ] and Mr. [ ] both  
 25X1 noted that any intelligence summary produced by CIA might well  
 25X1 be in competition with G-2. However, General Eisenhower has  
 25X1 specifically reported to Mr. Dulles that he had not seen anything  
 25X1 from CIA other than estimates, and did desire to receive pertinent  
 25X1 information pertaining to his area from CIA. It was noted that  
 25X1 [ ] is presently sending a brief daily report on operational  
 25X1 matters. Mr. [ ] stated that OCI was preparing a dry run  
 25X1 which is to be shown to the DCI for his approval.

25X1 Mr. [ ] reported that an individual of OPC apparently  
 25X1 had a mental breakdown Saturday afternoon and it was necessary to  
 25X1 place him temporarily in [ ] Hospital. He also reported  
 25X1 that our office Duty Officer system did not appear to be function-  
 25X1 ing, since the CIA Duty Officer was not able to contact the  
 25X1 proper authorities in OPC. (NOTE: CIA Regulations require that  
 25X1 each office notify the CIA Duty Officer where responsible indi-  
 25X1 viduals may be reached at all times.) Mr. [ ] also noted that  
 25X1 a plan was being drawn up to handle any future cases of this  
 25X1 nature, which will include action on the part of the Medical  
 25X1 staff, Security and the AD concerned.

25X1 Mr. Reber again raised the question of the Agenda to be  
 25X1 discussed at the AD's meeting. Mr. [ ] stated that he had  
 25X1 discussed this matter with the D/DCI and would discuss it further  
 25X1 with the DCI.

25X1
