Mr. Reber raised the question of the dissemination of the Minutes of the PSB Meetings and stated that in his opinion an individual of CIA should be charged with furnishing DCI and D/DCI staff support on PSB matters. Mr. [] noted that the few papers we had received to date from the Board for comment had been sent to DD/P. After further discussion it was suggested that possibly Mr. [] could be appointed as the above-mentioned CIA Staff Support Officer. Mr. [] noted that in addition to this it might be wise to request DCI and/or D/DCI to discuss PSB meetings at the Deputies' Meeting, and he would undertake to furnish such discussions to the interested offices of the Agency.

Mr. Reber also raised the question of OCI/ONE relations and indicated that State was "unofficially afraid" that CIA intelligence productions taken as a bulk were beginning to smack of old ORE studies. In this connection, Mr. [] noted that Mr. [] was scheduled to survey both of these Offices and he would mention [] State's fears in this matter.
