Director's Meeting

Wednesday, 16 April 1952

25X1

PRESENT: General Smith, Messrs. Dulles, Wisner, Wolf, Becker, Hedden,

25X1  
General Smith referred to the item in today's Log concerning our anti-Communist psychological warfare program  and, after some discussion, undertook to contact Mrs. Eleanor Roosevelt and request that she come in to see us concerning this program.

*S. 4. 17. 52*

Mr. Dulles stated that Park Armstrong was sending people to various embassies ostensibly to engage in peripheral reporting; however, it would appear that Armstrong was attempting to create a small foreign service within his own organization. After some discussion, the DCI directed that we discuss this matter with Armstrong to the end that he discontinue sending representatives from his office to foreign posts for permanent station. In this connection, the Director also noted that we should have no objection to Armstrong sending his intelligence people on trips and this was to be expected; however, he did not want these people prying into our affairs. *DDCI advises after further consideration no action necessary on this.*

Mr. Wolf recommended that the Director call Senator O'Mahoney within the next two weeks concerning the Senate Committee's hearing on our budget.

Mr. Wisner:

a. Noted that Mr. Jessup had been assigned the task of monitoring the current political go around with the Soviets and that he (Mr. Wisner) had been requested to go over to the State Department and give Jessup a briefing. The Director approved but stated that in the future Jessup and other officials of his level should come here for briefings since he did not approve of his Deputies going to them.

S. 4. 23. 72 25X1

c. Noted that he would like to discuss [redacted] assignment with the DCI. The Director stated that he had discussed this matter to some extent with [redacted] yesterday and if [redacted] decided to stay with us he intended to make paramilitary operations a separate activity with [redacted] at the head. In this connection, he noted that it was absolutely necessary to have a military man in charge of these activities and such individuals were hard to get. After some further discussion, the DCI directed that Mr. Wisner work out the details involved in making our paramilitary operations a separate operation since if we could not obtain the services of [redacted] he intended to get some other qualified person to head this program.

Mr. Hedden noted that Col. Hansen had been successful in preventing another article being written on intelligence failures and in this connection briefly discussed a proposal that CIA have a Congressional Committee or possibly a committee appointed by the President to "front for us". In this connection, the Director noted that this idea warranted some thought, however, he would not go along with any committee which would interpose itself between the President and him.

Mr. Becker:
