[redacted]

f. Referred to a proposed Clandestine Services Instruction on [redacted], and stated he did not want any regulations published on this subject. The Director stated if it was necessary to issue instructions on this matter, it should be done orally.

i. Noted a cable from [redacted] (IN 12612) respecting Agreed Activities, and asked that the memorandum previously prepared on our troubles with Defense on this subject be brought up-to-date and furnished him.

25X1

j. Noted he wanted to see Senator Mansfield the next time he is in the city.

k. Referred to an article on unrest in Poland, appearing in today's WASHINGTON POST & TIMES HERALD, which apparently was based on a Congressional Committee report, and stated he desired to see a copy of the full report.

Mr. Helms:

a. Stated that during [redacted] briefing for the Special Study Group he had mentioned a substance which when applied to [redacted] would destroy it, and said General Doolittle had been so interested in this that he had mentioned it to the Air Force who apparently, up to that time, had not been cut in on the development of this product. Mr. Helms made it clear that CIA had not participated in producing this substance, but had learned that the Army and others were carrying forward the research. Mr. Helms said he mentioned this matter in order that the Director and Deputy Director might have the background in case General Samford contacts them. It was also noted that the Soviets are buying what little bit of this product is manufactured in the U.S., paying about 40% above its market value.

b. Received the Director's approval for [redacted] to return for consultation at the end of October.
