l. Noted he had had a visit from Admiral Smedberg. The Director took note of the information furnished by Admiral Smedberg regarding supplying Nationalist China with certain sea mines and said that the conversation was for information only and no action was required.

m. Mentioned that at a recent meeting of the NSC the Joint Chiefs had discussed the matter of ChiNat raids and indicated they would leave the matter up to us. Mr. Amory said he felt sure this did not reopen the transfer issue but what they really meant was that the Joint Chiefs would leave it up to us as to whether or not the raids were of intelligence value.

n. Mentioned he had discussed the Syrian problem with the Secretary of State and that he would need a briefing on this matter prior to the next NSC Meeting.

o. Asked General Cabell to come in Wednesday afternoon, possibly with and brief the Director on General Cabell's recent trip.

p. Asked Mr. Sheldon to follow up the wind-up of the case, checking to find out what term the prosecution will ask for. Mr. Kirkpatrick suggested that the case brought to light a fundamental weakness of our espionage laws. The Director stated that a letter to Mr. Brownell might suggest that the Clark Committee would be a good place to get something done in this connection.

Mr. Wisner:

Mr. Wisner situation poses a very big job for us. He said no action was necessary by the Director at this time.
