DEPUTIES' MEETING

Friday, 27 April 1956

PRESENT: Mr. Dulles, General Cabell, Mr. Wisner, Col. White, Mr. Sheldon, Messrs. Kirkpatrick, Helms, Roosevelt, Bissell, Dr. Kent, Gen. Truscott, Mr. [REDACTED]

25X1

Mr. Dulles:

a. Referred to a memorandum he had received from General Erskine proposing that a meeting be held with representatives of the Departments of State and Defense, CIA and the Atomic Energy Commission to discuss procedures and methods for formulating a world-wide counter-intelligence policy. The Director noted this memorandum stated that the above-mentioned proposal is based on recommendations made by the JCS to the Secretary of Defense and further recommended that the counter-intelligence policy agreed upon be forwarded to the NSC for approval. After considerable discussion it was the concensus of those present that this matter should be channeled through the IAC. The Director indicated he would take the following action: 1) call General Twining (Chairman of the JCS) and obtain the aforementioned recommendations of the Joint Chiefs; 2) seek the views of the members of the IAC; 3) draft a reply to Gen. Erskine. NOTE: Subsequent to the meeting the Director attempted to call General Erskine and upon finding that he was out of the city sent Erskine a letter asking that he get in touch with him upon his return.

b. Referred to his testimony before the Symington Committee and noted that [REDACTED], Mr. Faul and Mr. Stoertz are now going over this material in order to determine what can and cannot be released to the public. The Director said he was concerned as to his duty in this matter and asked for the views of those present, noting that the following points should be taken into consideration; 1) if any of his testimony is published would such action establish a precedent; 2) is he likely to be called before other Congressional Committees, e.g. Foreign Relations, and give his views on the world situation; 3) if any of his testimony is published would he be violating the law in not protecting intelligence methods and sources; 4) should the testimony be made or not be made public in the national interest; 5) if it is made public what would be the effect on other intelligence agencies. After considerable discussion of these points General Cabell recommended that the Director 1) inform the Committee it would not be in the national

Mr. Bissell said he too had heard this and added that the Soviets had stipulated, however, that no Soviet nor Satellite citizens would be allowed to take advantage of this service.
