THE SECRETARY OF THE INTERIOR
WASHINGTON

November 15, 1962

Dear Lyman:

At the time of my recent visit, Chairman Khrushchev, at my request, directed that a copy of a film depicting the Soviet program for electrical power production be delivered to me. The film, with a sound track in English, illustrates the very high priority the Soviets give to overtaking the United States in the "energy race." There will be a first screening of the film on Wednesday, November 21, at 10:30 a. m., at the USIA film theater (Room 308). We would be honored if you could join a small group from Interior, State and others who have expressed interest in its content.

Would you let me know if you can attend and also provide us with a small list of others in CIA who would be interested in joining us for this event. The capacity of the theater is quite limited so we would appreciate hearing from you as soon as possible.

Sincerely,

Stewart L. Udall
Secretary of the Interior
