

61-4329
Sunday May 7th

Dear Allen.

Just wanted to tell you that
I have been thinking about
you a lot since the fireworks
started up again. I would
hardly tell you that you
have my unqualified support
(quite worthless in this exercise, to
be sure!) as you have that of
all those who worked with
you before. It is in the nature
of your business to be sniped

at extraneous with him
able to defend your self; but

This time the ignorant
critics have gone dangerously
overboard, doubtless and even
obviously for purposes of their
own little (or big) empires, and
not for the interests of the USA.

I do wish there were
more I could do than
just have this little chat
with you. If there is any
conceivable thing I can
do to help you - or our common
cause - just summon me
and I will be there.

My warmest regards to Elvira
and yours truly
Henry Hyde
