Dear [Redacted]

Receipt is acknowledged of your letter, postmarked 22 September 1977 in which you requested information regarding certain tests you believe may have been performed on you.

The recently discovered files of Project MKULTRA do contain evidence that research involving human testing was conducted in the fields of behavior control using techniques involving hypnosis, drugs, etc. Our records indicate such testing on unwitting subjects ceased in 1964. Unfortunately, neither Project MKULTRA files nor any other files thus far located contain the names of persons who may have been used as test subjects.

Admiral Turner has assured the Congress that the CIA will attempt to identify those persons who were the subjects of unwitting testing conducted under Project MKULTRA. To this end, the institutions where Project MKULTRA testing took place have been notified of their involvement with the project. Admiral Turner has offered these institutions his full cooperation in helping them identify the persons who were test subjects. Please be assured I will inform you immediately if any institution notifies the CIA that it has identified you as having been a Project MKULTRA test subject.

Per our letter to you, dated 29 September 1977, we are processing your request for information on yourself. We will provide a response to you as rapidly as possible; however, you should be aware that the Agency has received a large number of requests similar to yours and as a result a huge backlog has developed. We process the requests on a "first come, first served" basis.

We thank you for your consideration.

Sincerely,
[Redacted]
