General George S. Blanchard
Commander in Chief
Headquarters, United States Army,
Europe and Seventh Army
APO New York 09403

Dear George,

Thank you for the fine comments on the work performed during the period 9 through 22 September by the national intelligence community in support of the CARBON EDGE portion of the REFORGER 77 exercise. As you are aware I fully support the use of national collection systems as tools for use by U.S. tactical commanders, especially during peacetime. I welcome the opportunity to continue our support of both tactical exercises and real world tactical operations.

Rest assured that you have my continued support and I have instructed my staff which supported you during the CARBON EDGE USAEUR exercise to interface with your intelligence staff through the channels already established for timely support of your future requirements.

Sincerely,

STANSFIELD TURNER

MEMORANDUM FOR: 25

FROM : STANSFIELD TURNER
Director of Central Intelligence

SUBJECT : Letter of Appreciation

I have recently received a letter from General George S. Blanchard, Commander in Chief, Hq. U.S. Army Europe and Seventh Army expressing his appreciation for the work you did during the period 9-22 September 1977 in support of the USAREUR exercise CARBON EDGE (REFORGER 77).

It is through the contributions of personnel such as you that we will find the most expeditious approach to satisfying tactical requirements using national collection resources. I wish to add my appreciation to that of General Blanchard for the fine effort you displayed in supporting U.S. Army Europe tactical exercise requirements.

NPIC is not presently knowledgeable of all the contributions made by the intelligence community to the CARBON EDGE exercise.

Enclosed is a letter to General Blanchard which acknowledges his letter of 4 November and requires Admiral Turner's signature..

Also enclosed are 11 letters of appreciation to NPIC employees who participated in the CARBON EDGE exercise. These also require DCI signature.

Finally, enclosed for information purposes is a background description of the work involved in supporting CARBON EDGE.
