- c. The determination of the colors of paint to be made available for individual offices as new painting is required.

Mr. James Reber, Chairman, FAC, may be contacted to provide detailed instructions and requirements to the interior decorator.

3. In selecting an interior decorator you are requested to bear in mind that we should have advice from just one individual or firm who would be expected to present a master plan for the entire building and who would be available to serve on a continuing basis as we identify other areas requiring the services of a professional interior decorator. The selection of the interior decorator will be the responsibility of the DDS, however we suggest that this be done in coordination with the Chairman of the Fine Arts Commission.
