8 October 1975

MEMORANDUM FOR: Deputy to the DCI for the Intelligence Community

SUBJECT: Coordination Visit of [Redacted] USN

25X1

1. National Imagery Plan for Satellites (NIPS). The IC Staff is heading a multi-agency/service study to formulate a National Imagery Plan for Satellites similar in some respects to the National SIGINT Plan. However, we are including a specific annex on "Military Operational Use of National Imagery." The annex will be in three parts:

- a. Current Utilization--1975-1976
- b. Mid-Term Utilization--1976-1981
- c. Long-Range Utilization--1980-1990

Under each part we plan to discuss peacetime, crisis periods, and hostilities in relation to operational use, operational needs, and exploitation and dissemination. A rough draft, based on existing JCS studies and joint JCS-ICS composition, is nearing completion. What we are interested in obtaining are the opinions and inputs from the unified and specified commands and their operational/component commands. The rough draft is being forwarded ahead of time for review by appropriate staff personnel. The purpose of [Redacted] trip is to work with [Redacted] staff personnel to obtain a valuable annex reflecting commanders' needs. [Redacted] will be working with representatives from plans and operations, as well as intelligence. This is the Pacific leg of the trip that commenced with a visit to the European commands in September.
