MEMORANDUM FOR THE RECORD

Morning Meeting of 22 April 1969

ADD/I related that the Review Group is now scheduled to meet tomorrow on Middle East problems.

Godfrey noted an unconfirmed Japanese report of a Korean refrigerator ship with dead crew members on deck. Given its reported location some fifty miles offshore, he commented that he is inclined to doubt the validity of the report.

with his situation. DD/S summarized security approval procedures outlined in a memorandum prepared in response to the Director's questioning of yesterday.

The Director asked the DD/S&T to prepare material for tomorrow's testimony indicating when he first mentioned the SS-9 and SS-11 in testimony on the Hill.

In response to ADD/I's question about the distribution which should be given to a recently completed situation report on Soviet ICBMs, the Director said that he wants to review the report prior to distribution.
