

10-III-53

Bob:

1. In accordance with our informal discussion of the attached matter yesterday, the [redacted] File" is herewith returned.

2. It is my view that two problems are involved: (1) the immediate one of the manner in which the Assessment and Evaluation Division is operated and (2) the basic problem of the correct role of that Division in the scheme of Agency activities (organizational location, mission and functions, size, etc.).

3. It follows that I feel an investigation of the A&E Division should be made. I also feel that this properly is a function of the Office of the Inspector General

4. If, upon re-study of the file, you agree with the views I have expressed in paragraphs 2 and 3 above, I suggest that you propose to Mr. Dulles that he assign me to the task; if you do not agree or have another suggestion, please give me a call and let's discuss the matter.

[redacted]

25X1

*I am authorized to run this down, in collaboration with [redacted] Mr. D suggests starting with [redacted]*
