Dear General Walters,

I don't know whether or not you remember me, but I met you once in 1965 or 1966

STAT

[redacted] have spoken of you often and it was my father who suggested that I write to you. What I am looking for is some advice which I hope that you might be able to give me.

STAT

I am a Senior at [redacted] and plan to graduate this June. I will have two degrees in Political Science and History. I had originally planned on going to Law School, but now I have decided that it would be more to my advantage if I were to work for a few years before continuing with my schooling. I would like to do something with the State Department or Foreign Service or possibly even the CIA. I was wondering if you could tell me what opportunities a woman might have in the CIA and if you could advise me on what steps to take in securing such a job.

Any information or advise which you would be able to give me would be greatly appreciated. Thank you very much; I will be waiting to hear from you.

Very truly yours,

STAT
