- 1. Installations near Kragujevac:
  - a. Underground special explosives factory

On the main highway between Kragujevac and Svetozarevo, about 2 km. from the outer limits of Kragujevac, there is a road leading from the highway into a heavily wooded area which is surrounded by a barbed wire fence and guarded by armed guards. Only persons with special passes are permitted to enter the area. Inside the area there is a military factory, with about 100 employees - workers, technicians, officials, which produces "special explosives" /not further described/, and which is completely underground.

- b. Mobilization Storage Depot

From the center of Gornja Sabanta, there is a road, currently under military control, which leads to the village of Ratkovic. About 1 km from the center of this town, on the right, a new military road branches off for about 2 km. to an area where are located the military storage depots. [REDACTED]

[REDACTED] they were visited frequently, at least once and sometimes twice a month, by "high" officials from Kragujevac or Belgrade. Transports to and from the depots always took place at night, with military police escort.
