30 June 1966

MEMORANDUM FOR: Acting Secretary, CODIB

SUBJECT: Activities of Emergency Planning Working Group in FY 1966

Two formal meetings were held during the year. The paper on Dispersal of Collections of Finished Intelligence was entirely rewritten and issued as CODIB EP-D-2, 15 February 1966. It lists 61 locations outside the Washington, D.C. area that have significant collections. All locations are shown on a map that accompanies the report. The Working Group has been handicapped by the shortage of hardened sites and by the relatively low priority that this subject carries among officials responsible for allocating resources.
